

Mp3 Mike Wireman - Chill Mode

[DOWNLOAD HERE](#)

Soothing and relaxing instrumental smooth jazz. 11 MP3 Songs JAZZ: Smooth Jazz, URBAN/R&B: Contemporary urban Details: I'm from the Washington DC area and that is where my musical roots are. I have done everything from being a club DJ to working in radio as a Host/Producer. I played percussions in a local band before making the change over to keyboards about seven years ago. Since then I have been composing and recording music out of my home studio. I think it is safe to say that there is a little bit of all the different types of music that I like in the music that I make. I listen to Rock, all types of Jazz (a lot of Smooth Jazz) some Hip Hop and Rap (old and new school) Funk... My music is influenced by all of the above and once you hear the tracks on my CD I think you will agree and enjoy my music. I have tried to blend in elements of all these different types of music and keep a smooth jazz flow and flavor to my songs. All the tracks on this CD are instrumentals and are soothing and relaxing to listen to. So far, I have had nothing but positive feedback on this CD. I'm always open to getting feedback on my music, so by all means review it and let me know what you think. RECENT REVIEW: Now, your CD is an example of jazz being taken to the next level. I have gotten into many discussions in different jazz forums. So-called "jazz purist" would have a fit if your CD was labeled jazz. Others who are very open minded will love this CD. Your CD is very smooth, soothing and relaxing. My friend says that your CD is a combination of chill-out bliss music with a hit of smooth jazz. I didn't want to believe her. But the more I listened to it (and the more I was pulled in by the beat of Trippin') I had to agree with her. On a scale of 1-10, I would give this an 8.5. No doubt that in the right hands, this will draw you a lot of attention. I plan on buying a few copies from you in the very near future. Keep up the great work. Carson FROM AL SANTOS AT SMOOTH JAZZ 105.9: Have listened to it and sounds like a track or two will make it on the Sunday Brunch show...
