From ambient to breakbeats to house, it's a little electronic something you can jam to whilst cruising your favorite street or doing the household chores. Only available on CD-R format. They're colored, though. 23 MP3 Songs ELECTRONIC: Electronica, ELECTRONIC: Industrial Details: In our never ending quest for perfection and enlightenment, we at Data Mix have decided to take what were going to be DTMX1 and DTMX2 and merge them into what we call DTMX4 (DTMX3 is the MX-00 website catalog number), thereby giving you, the discerning consumer, the opportunity to own all of the compositions in one easy to use package. Why are we doing this? Because we didnt have anything better to do and it would give you something new to place on your cd shelf or the floorboards of your preferred mode of transportation. Disc One contains the full length versions plus one remixed track while Disc Two contains edited versions of the longer tracks (for those people with short attention spans) plus 4 remixed a/o edited tracks. So, without further ado (and without a John Williams score - he didnt want to waste his time), we present to you DTMX4: 1.2 Albums In 1! Here's what some imaginary people are saying about it: The most unimaginative load of bollocks ever to have been etched by a laser! - The President of DATA MIX As if we havent heard them enough on MySpace.....AS IF! - MX-00s Friend List Id rather be mauled by Siegfried Roys tiger.....again! - Claude Remaynes "I wouldn't even hock this crap!" - The Bearded Guy Who Hocks Crap On TV That Smells of Orange Peels "What? They're on CD-Rs?! Cheap bastards!" - Gene Eric Brand People who are interested in should consider this download.
