MP3 Songs WORLD: Judaica, KIDS/FAMILY: Lullabies Details: "Listening to Tanja Solnik sing is like being held. Her voice is so extraordinarily lovely, her songs so tender that many listeners will be moved to tears. This is a recording for everyone from babies to grandparents." -- Moment Magazine "There are many children's recordings on the market that the little ones like, but, alas, not many that we mommies and daddies can tolerate without wanting to throw something at the CD or tape player. In time to save the stereo equipment comes Tanja Solnik's Lullabies and Love Songs which is a pleasant collection of Hebrew, Yiddish and Ladino tunes that youngsters and parents can enjoy together. Lullabies offers an opportunity for children to learn about the richness of Jewish culture while being entertained. Solnik's voice is mollifying and the instrumental accompaniment is just right for children - not too complex or overpowering. For their parents, the arrangements are not too simplistic or mono-tonal. Like Solnik's first collection, From Generation to Generation: A Legacy of Lullabies, Lullabies and Love Songs belongs in the music collection of every Jewish family." --Cleveland Jewish News ----- "A few months ago my brother gave me a baby gift for my soon-to-be-born son: two of your lullaby CD's, A Legacy of Lullabies and Lullabies Love Songs. We love them! As we wait these last few weeks, I have been playing them a lot in hopes that he will remember them when he listens from outside the womb. Your songs and voice are so soothing. We are so thankful to have discovered your music." --Kristin Frank, Nashville, TN
