[DOWNLOAD HERE](#)

An organic blend of funky soulful tunes with a heavy 70's influence, laced with Hammond B3, Fender Rhodes, wah-wah guitar and chromatic harmonica in the tradition of little Stevie Wonder. 10 MP3 Songs

URBAN/R&B: Rhythm Blues, URBAN/R&B: Funk Details: Self Produced solo cd from former singer/songwriter for Boston's award winning band, The Heavy Metal Horns (Polystar/Danger). A year in the making and released to rave reviews, this recording captures the more intimate, soulful and political side of Thaddeus' funk savvy and songwriting. Contains nine original cuts and one acoustic cover of Stevie Wonder's 'Big Brother' (Talking Book). Features Thaddeus as a multi-instrumentalist with a group of world class musicians (band members formerly with Frank Sinatra, Phil Collins, Gino Vanelli, Smokey Robinson, Taylor Dane, to name a few). The final result is a recording that sounds like a complete work, very reminiscent of the 70's in production/songwriting, as well as instrumentation (Fender Rhodes, Hammond B3, Clavinet, chromatic harmonica, wah-wah guitar and Talk-box).
