

Mp3 Tony Williams - From The Heart

[DOWNLOAD HERE](#)

Soft adult contemporary love songs/lullabies for the romantic at heart. 9 MP3 Songs EASY LISTENING: Love Songs, COUNTRY: Country Pop Details: I made the CD "From the Heart" for someone who is no longer a part of my life. It is a collection of love songs and lullabies written and performed for a memory . . . some good . . . some bad. My favorites include "Sad Blue Eyes", "Lover's Moon", and "The Half That Makes Me Whole". This collection received very limited distribution in 1997. I stopped publishing / promotions when things began falling apart between us. I thought I would offer the remaining copies to anyone who may share feelings of love, loss, and romance. I haven't much played since the break-up. But just recently, I began writing again. I think things happen for a reason . . . though sometimes its difficult to understand why things happen the way they do . . . ----Tony Williams
