

\$ 7 Dollar Secrets

There are hundreds of "gurus" online who want to sell you products for \$297, \$497, \$997 or more that they claim will show you how you can earn a living online. Using my new Secrets method, I generated over \$3,000 in just 7 days with one thirty page report. Read on to find out how. But First, The Proof Screenshots of just a fraction of one day's PayPal report sales. Dear Friend, Now that I have your attention, and you have the proof, let me tell you what all of the "gurus" are claiming these days--and why they're all wrong. You see, the "gurus" of Internet Marketing want you to believe that you have to invest hundreds or thousands of dollars in their products in order to have the knowledge you need to earn a great living online. They want you to think that there's great hidden secrets that only they have, and the only way for you to get a hold of them is to break out your credit card and start spending loads of cash. The truth is, there is a hidden secret. The secret is that these guys are scamming people, and nobody seems to know it! Let me ask you a simple question. Think hard about this question, and apply the common-sense, logical answer against everything you've ever been told by the "gurus". The question is... Which item do you buy without thinking about the expense: a McDonald's lunch for one person or a new computer? Two magazines at the newsrack or a new refrigerator? A few gallons of gas, or a plane ticket? The answer should be obvious. Most people don't sweat buying something that only costs a few dollars. They just buy it, use it, and throw it away when they're done. No big deal. Hundreds of millions, if not

billions, of people buy items like this every day. Do you know who the #1 wealthiest company was in the USA in 2006? Exxon Mobil. What does Exxon sell? Gasoline. How do they sell it? One gallon at a time. Do you know who the second wealthiest company was in the USA in 2006? Wal-Mart. What does Wal-Mart sell? Mostly cheap little items. Well I'm about to show you how Jon Leger used the theory of selling one inexpensive item MANY, MANY TIMES to earn over \$3,000 in just 7 days. Imagine, day after day, having dozens or hundreds of \$7 deposits in your PayPal bank account, with almost no refunds or customer support--ever. What an easy way to earn a living that would be! You can have that life. I'll show you how. To teach you all of this, Jon Leger created a report called \$7 Secrets. It's a knowledge-packed report that will teach you everything you need to succeed by selling small, informational reports for only seven dollars each. Just look at the table of contents: If you're serious about your online marketing business in 2007, you will get this report, plus the free scripts that it comes with, right now and read the report today. Can you guess what it will cost you to get this incredible money making information, information that can blast your profits through the roof? Yes, for the price of a fast food dinner you will have all of the information and software you need to jump full force into the realm of creating and selling seven dollar reports for massive profits. Why \$7? I'm only charging \$7 for this report, and not giving this report away, for 3 reasons. \$7 puts the report within reach of the vast majority of people. It's not too expensive for even the humblest beginning online businessperson. Anyone who's not serious enough about their marketing efforts in 2007 to invest into this report isn't going to take the time to use the methods laid out in the report anyway. Anyone who is serious enough to put down the price of a fast food dinner and buy this report has the opportunity to sell the report to others and get the FULL PRICE of every copy they sell directly in their own PayPal account immediately. More details on how to do that are in the report.
