Details: I was born in Orange County on October 14, 1980. At the age of 15 I moved to Victorville Ca. and I've been there ever since. A short time after that move I started a West Coast underground Hip Hop group and called it B.U.G which stands for Below Under Ground. I started rapping when I was 9 years old. More and more I listened to Rap and then I developed my own style. Throughout high school me and my homeboy Arkive planed to expand B.U.G ,but were slowed down by our other talent. I ran track throughout high school so when scholarship offers started coming, I had put track and field my first priority. I still battled at lunch time, but I put rap aside for the time. In college is when Hip Hop once again became number one to me and sports were second. I started recruiting MC's, break dancers, graffiti artists, and DJ's and I became a leader. Arkive and I went to clubs and parties where to better my rapping we challenged people to battle rap. Then I lost my scholarship and my mind at the same time. So on returning home I went B.U.G crazy!!!! Now I'm redruiting for B.U.G and Skull Records Inc. while I do what I'm best at and Love every moment of it. See You At The Top, Shadow / B.U.G
