A mix of raw sexual lyrics, killer electro hooks and good beats. 13 MP3 Songs ELECTRONIC: Electro, ELECTRONIC: Electroclash Show all album songs: 13 Songs Details: Cherry Bikini's fourth album, "13" combines various lyrical and musical elements to create a spectrum that is at once hyper-sexual, playful, and dreamy, all the while retaining the unmistakable Cherry Bikini sound. The CD starts off with the pumping sextronica anthem "The Best Fuck Of Your Life", and retains that sexual energy for most of the album. Musically this is the duo's most diverse release to date. But whether it's the slower grind of "Climb on and ride", the 80's influenced alterna-pop gems like "Bring The Sexy", or slower numbers like the romantic "Not Satisfied", one thing is for sure - the CD will make you feel hot under the collar. With the release of "13", the kings of kinky electro-pop have once again established themselves as one of the essential artists in the genre.
