This the first release of Mosters of Goth Ex-VoTo. The first time available on Cd. Includes the classic hits Falling Apart and If I never. Hear the music that help start the scene. Gothic Rock. Old School Danceable Deathrock. Guitars, Drum Machines and Key 13 MP3 Songs ROCK: Goth, ELECTRONIC: Industrial Details: Anno Domini represents a collection of some of our very first songs! The time frame for these songs is circa 1982-90. These songs were re recorded in 1996 for this album due to the poor quality of the original recordings. On this CD you will find four bonus tracks which were not on the first pressing of this CD. We discovered another DAT tape of master from this session and decided to add them. These are the songs we were playing in L.A. clubs in the early 80's at the beginning of the Deathrock / Gothic scene. If you're a fan of old school Deathrock you're sure to enjoy this CD. If you like bands like the Sisters of Mercy, Red Lorry Yellow Lorry, the Mission, 45 grave, Bauhaus etc, etc. This should be right on the mark!
