Details: Kalama Tea is a trip... A collection of rock songs with constant changing themes and moods held together by strong melodies and intelligent lyrics about the fun and happy side of abuse, shady politics, self-designed patriotism, and self-inflicted death; it is also laced with experimental layers of noise, loops and electronics reminiscent of David Bowie, The Flaming Lips, Wilco, and Pink Floyd. Just Plain Bill takes another right turn by embellishing their core sound with panning drum kits, Rhythm Ace loops, Moog synthesizers, electronic chopped instruments and Mellotron, as well as, interesting acoustic flavors of dulcimer, vibes, and sitar. Kalama Tea is an exciting, toe-tapping experience.
