While we do not think this love match would have been much of a success, such a musical union is a beautiful thing in the skilled hands and sparkling voices of the Grace Sisters. Having spent a lifetime steeped in diverse musical traditions, they have created a soaring sound and bright presence all their own. "Leela's and Ellie's singing is clear, pitch-perfect, and expressive. 'Soaring' is a word that comes to mind." -- The Old Time Herald "Leela and Ellie Grace soar off this disc like a breath of fresh air in the smoky atmosphere of singer-songwriters . . . It's very rare that I encounter a talent as charismatic, authentic, and enjoyable as yours." -- Bob Katz, Digital Domain "What an album! I am constantly impressed by your talents, both musical and literary. Even though I had "pre-listened" to a couple of the songs on your my-space page, I was still mesmerized by the tight harmonies, wonderful lyrics, and great accompaniments. This CD sounds SO GREAT. Most people have a favorite song or two on any CD they own. Not so with this collection. EVERY song is my favorite--I can't pick just one." --Vicki P.
