Rich, poignant lyrical depth afloat in an electronic landscape . . . 15 MP3 Songs ELECTRONIC: Ambient, FOLK: Gentle Details: " Goldenacre " germinated from several musical elegies and life stories , whittled down from nearly 3 hours of recorded sessions . It is a moving work of patient observation , collected impression of lives and living . While entirely an electronic recording , it is not completely divorced from territory explored on Mark's earlier recordings , of which British writer Dave Henderson wrote : ... simplistic structures build mountainous stories which pin - prick the imagination and flood forth with forthright power ." (Offbeat , January 1989) . " Memoirs of a Distracted Church Organist " , is a companion release , a collection of various pieces from the same sessions , in different stages of development . Some obscure and skeletal framework for future possibility , others more complete and structured .
