americana feet on a rock n roll body with jazzy curves a pop attitude. 10 MP3 Songs POP: California Pop, ROCK: Americana Details: Michael John Serpe (Sir-P), born second son to Arnold Lucille for faith in the family name..... Im a singer/ songwriter also owner/ operator of Home Recorded Culture. Founded in 1994 after intern stints at both SUB POP C/Z records. HRC is not a label, it is a musician artist toolbox. Fully equipped with a bare-bones recording studio a screen-print shop. Id say the albums about living too hard, being too serious how thats no fun. Its about diving into a bottle of gin to toast the ghosts that chase you through your head how thats no fun. Its about biology, lineage heritage... Its about the things that make us yearn to burn brighter than the sun the things that remind us of how human we really are. Its about going home its about meeting your father..... Its all these things, written as cryptically as possible because really Im a music fan more than I am a musician if their is one thing Ive learned its the difference between me songs we songs. As listeners we want to make music our own, not listen to some skinny kids head trip! As for the packaging, it folds out into a gin bottle the bag that the CD sits in smells like gin! Of the 1000 made 8 of them have a gold imprint on the bag that gets the lucky owner 1 free HRC release... Willy Wonka style! Thanks for your time!
