I could go into great detail about this album, but I'd rather you get lost in the music versus any adjectives used to describe it. So I think it's better if you just click on the samples and judge for yourself. 7 MP3 Songs in this album (25:43) ! Related styles: NEW AGE: Ambient, AVANT GARDE: Electronic

Avant-Garde Details: Born and raised in Southern California, influenced strongly by my mom who was a concert pianist; I'd have to say I was pretty fortunate to have musical foundations that were both Classical and Rock-n-Roll. Plus it didn't hurt that both my mom and grandma were very supportive of my musical pursuits. I was signed to Windi Records in my teens with the band Osiris. We played lots of gigs for several years but nothing much happened with Windi Records for various reasons. Still, it was a good experience and taught me a lot about the music biz. Some of my musical influences were: the Beatles, Jimmy Hendrix, Kansas, Joe Satriani, The Romeros, Alternative artists, and lots of the great Classical pieces. As an artist I've transitioned from Classic Rock, to Alternative, to Ambient Film Music. I believe that all of these have influenced my current music in such a way that what I'm now writing is cutting-edge stuff. My wife says it's like nothing she's ever heard. To quote her, "It's raw and real and stirring."
