

Natural Acts: A Sidelong View Of Science And Nature - David Quammen

"David Quammen is simply the best natural essayist working today."--Tim Cahill, author of *Lost in My Own Backyard* "Lively writing about science and nature depends less on the offering of good answers, I think, than on the offering of good questions," said David Quammen in the original introduction to *Natural Acts*. For more than two decades, he has stuck to that credo. In this updated version of curiosity leads him from New Mexico to Romania, from the Congo to the Amazon, asking questions about mosquitoes (what are their redeeming merits?), dinosaurs (how did they change the life of a dyslexic Vietnam vet?), and cloning (can it save endangered species?). This revised and expanded edition best-loved "Natural Acts" columns, which first appeared in *Outside* magazine in the early 1980s, and includes recent pieces such as "Planet of Weeds," an influential new *Natural Acts* is an eye-opening journey that will please both Quammen fans and newcomers to his work. Song lyrics have been redacted from this ebook owing to permissions issues. Author: Quammen, David Publisher: W. W.
