Why you could be leaving money on the table by ignoring CPA income just because it sounds too complicated Dear New Marketer, Do your eyes glaze over when people start tossing around terms like CPA or PPC or ROI? Do you skim over or skip articles because they sound like they were written by an accountant giving a year end report? If youve ever said to yourself, Thats too complex for me. Ill look into it later, then youre making the exact same mistake I made, back when I was first starting out my internet marketing career. How do I know its a mistake for you too? Because you cant decide something wont work for you until you know exactly: blue arrow What it is blue arrow How it Works blue arrow Whether or not its going to be up your alley or something that will bore you to tears You see, youve got to taste pistachio ice cream, before you can decide whether you actually love or hate it. You cant say youre no good at fishing, when youve never even held a rod in your life. You need to know before you make a decision... And lets just face it Your eyes will probably glaze over even more if I start talking about cost per acquisition and rattling off comparisons with cost per action. But stick with me for a minute or two, because.... When You Simplify A Subject The Light Bulb Suddenly Goes On! Im an up-front person, and if

theres one thing that irritates me, its a lot of jargon. Jargon and acronyms tend to KPO. (Keep People Out.) And sometimes it's done deliberately to keep the potential profits to a 'select few' And thats the tragedy of so many new marketers ignoring CPA income secrets. The truth is * CPA Marketing is simple.

- * Getting in on the ground floor is easy.
- * The rewards can be anywhere from 'nice' to substantial. And its a heck of a lot easier than regular affiliate marketing as well as half the work! Its also noticeably more profitable than Google Adsense so much so that youll wish youd tuned into CPA marketing sooner. (At least, it was for me and Im going to let you know exactly why.)

Theres One More Fact Nobody Ever Tells You CPA Marketing is fun. I have to tell you that particular unexpected side effect really caught me by surprise. Look - When I was first starting out I tried all sorts , Adsense was a little tricky until I got the hang of it, although I was never a master! But there was absolutely no emotional involvement. Cloaking affiliate links was, frankly, a pain and confusing to learn. And affiliate marketing was a lot of work (and usually nothing more.) Oh I was very happy to promote products and people I sincerely believed in. But nothing about these forms of marketing would ever make me think of all that work as fun. But CPA Marketing is different. The closest way I can describe it Its sort of like playing one of those video games, where you collect the jewels. That best describes the feeling it gave me, when I first started seeing results. Its gratifying to see something in return for what youre doing. (Especially since, once youre past your simple set up, youre not even really doing it!) You see, when I accidentally got re-routed into CPA marketing, I discovered it was actually the easiest money-making form of internet marketing Id tried yet! And you dont feel like youre doing back flips, promoting someone elses work. (Because youre not!) Let's cut to the chase - what info do I have for you? I'll show you how to...

- blue arrow Join several CPA networks and see how easy they make it for you to promote their well-streamlined and tested offers
- blue arrow Learn how to pick and choose both what you'll promote, and which one-click method you can use.
- blue arrow Rack up points and be eligible for bonuses and rewards, with CPA Networks run on that sort of system
