

Ocean Weather Forecasting

[DOWNLOAD HERE](#)

Part I: Introduction- 1: N. Smith, Perspectives from the Global Ocean Data Assimilation Experiment- Part II: Modeling- 2: S. Griffies, Some ocean models fundamentals- 3: A.M. Treguier, Models of ocean circulation- 4: R. Bleck, On the use of hybrid vertical coordinates in ocean circulation modeling- 5: E. Blayo and L. Debreu, Nesting ocean models- Part III: Oceanographic observations and atmospheric forcing- 6: I. Robinson, Satellite measurements for operational ocean models- 7: U. Send, In-situ observations: Platforms and techniques- 8: S. Pouliquen, In-situ observations: Operational systems and data management- 9: W. Large, Surface fluxes for practitioners of global ocean data assimilation- Part IV: Data assimilation- 10: P. Brasseur, Ocean data assimilation using sequential methods based on the Kalman filter- 11: I. Fukumori, What is data assimilation really solving, and how is the calculation actually done?- 12: F. Rabier, Importance of data: A meteorological perspective- 13: D. Anderson, M. Balmaseda, and A. Vidard, The ECMWF perspective- Part V: Systems- 14: P. Bahrel, MERCATOR OCEAN global to regional ocean monitoring and forecasting- 15: M. Bell, R. Barciela, A. Hines, M. Martin, A. Sellar, and D. Storkey, The Forecasting Ocean Assimilation Model (FOAM) system- 16: E. Chassignet, H. Hurlburt, O.M. Smedstad, G. Halliwell, P. Hogan, A. Wallcraft, and R. Bleck, Ocean prediction with the HYbrid Coordinate Ocean Model (HYCOM)- 17: A. Schiller and N. Smith, BLUElink: Large-to-coastal scale operational oceanography in the Southern Hemisphere- 18: J.F. Minster, Operational oceanography: A European perspective- 19: Y. Desaubies, MERSEA: Development of a European ocean monitoring and forecasting system- 20: L. Crosnier and C. Le Provost, Internal metrics definition for operational forecast systems inter-comparison: Example in the North Atlantic and Mediterranean Sea- 21: J. Harding and J. Rigney, Operational oceanography in the U.S. Navy: A GODAE perspective- 22: M. Altalo, Applications of ocean forecast information for economic advancement in developed and developing societies- 23: B. Hackett, Forecasting the drift of objects and substances in the ocean- 24: A. Oschlies, On the use of data assimilation in biogeochemical modelling- 25: J. Wilkin and L. Lanerolle, Ocean forecast and analysis models for coastal observatories- Appendix- Index EAN/ISBN : 9781402040283 Publisher(s): Springer Netherlands Discussed keywords: Seewetter Format: ePub/PDF Author(s): Chassignet, Eric P. - Verron,

Jacques
