Compasin brings a combination of flamenco and improvised music. The musicians are inspired by traditional forms as well as newly composed material. Elements of Jazz and Flamenco make a unity, or a contrast. 12 MP3 Songs in this album (53:15) ! Related styles: WORLD: Flamenco, JAZZ: Crossover Jazz
Details: Five musicians and composers sharing their passion (pasin) for Flamenco rhythm (comps) and Jazz improvisation to create a new and exciting musical expression preserving the feel and traditions of both genres. Every piece has his own recipe. Of course mainly because of the different compasses but also because of every individual musician who found an original way to add something to the performance of the music.
