Don't be intimidated by the phrase "Forum Marketing", it really isn't as hard as it sounds. In fact my videos make marketing on a forum as simple as tying your shoes! So here's the catch: Some marketers out there are doing forum marketing, but they are doing it poorly, and not getting very many sales. Would you rather spend the next several months studying forum marketing and trying to figure out what works best, or would you prefer a faster method? There is a right way and a wrong way to do forum marketing (the wrong way would be sinking an endless amount of cash into lesson after lesson, wasting time or even

ruining your reputation by not presenting yourself well on the forum, and not having a clear plan of action). I don't want to see you wasting your time doing things the wrong way, that is why I created this video training series.
