

Associative And Endophytic Nitrogen-fixing Bacteria And Cyanobacterial Associations

[DOWNLOAD HERE](#)

Preface to the Series. Preface. List of Contributors. Dedication.- 1. Historical Perspective: From Bacterization to Endophytes; C. Elmerich- 1. The Nitrogen Cycle: Heritage from the 19th Century- 2. Nutritional Interactions between Bacteria and Plants- 3. Associative Nitrogen-fixing Bacteria- 4. Discovery of Nitrogen-fixing Endophytes- 5. Cyanobacterial Associations- 6. Concluding Remarks- Acknowledgement- References- 2. Molecular Phylogeny and Ecology of Root-Associated Diazotrophic α - and β -Proteobacteria; M. Schmid and A. Hartmann- 1. Introduction- 2. Tools for Molecular Phylogeny and in situ Localization of Bacterial Isolates and Communities- 3. Molecular Phylogeny and Ecology of *Azospirillum* and Other Nitrogen-fixing α -Subclass Proteobacteria- 4. Molecular Phylogeny and Ecology of *Herbaspirillum*, Diazotrophic *Burkholderia* spp., and Other Nitrogen-fixing β -Proteobacteria- 5. Conclusions and Prospects for Future Studies- Acknowledgements- References- 3. Regulation of Nitrogen Fixation and Ammonium Assimilation in Associative and Endophytic Nitrogen-fixing Bacteria; F. O. Pedrosa and C. Elmerich- 1. Introduction- 2. Rhizospheric and Endophytic Bacteria: General Features- 3. Structural Organization of *nif* Genes- 4. Identification of RpoN and Its Involvement in Nitrogen Fixation- 5. The Ntr System and Control of Nitrogen Metabolism and Nitrogen Fixation- 6. Regulation of Nitrogen Fixation- 7. Conclusions- Acknowledgements- References- 4. Chemotaxis in Soil Diazotrophs: Survival and Adaptive Response; G. Alexandre and I. B. Zhulin- 1. Introduction- 2. Gene-Expression Regulation and Chemotaxis as Adaptive Responses to Environmental changes- 3. Molecular Mechanism of the Chemotactic Response: Learning from *Escherichia coli*- 4. Directed Motility in Soil Diazotrophs- 5. Future Studies- References- 5. Molecular Genetics of Rhizosphere and Plant-Root Colonization; E. Vanbleu and J. Vanderleyden- 1. Introduction- 2. Motility of Associative Diazotrophs- 3. Attachment to Plant Roots- 4. Rhizosphere Competence- 5. Conclusions- Acknowledgement- References- 6. Microbial Production of Plant Hormones; B. E. Baca and C. Elmerich- 1. Discovery of Phytohormones- 2. Production and Role of Phytohormones- 3. Pathways for Plant Hormone Biosynthesis: Common Routes in Plants, Bacteria and Fungi- 4. Major Routes for IAA synthesis in Pathogenic and Beneficial Nitrogen-fixing Bacteria Associated

with Plants- 5. Multiple Routes for IAA Synthesis in Azospirillum- 6. Other Phytohormones Produced by Plant Pathogenic and Nitrogen-fixing Associated and Endophytic Bacteria- 7. Plant Growth Promotion (PGP): Role of Bacterial Phytohormone Production, ACC-Deaminase, and the Use of Synthetic Auxins- 8. Concluding Remarks- Acknowledgement- References- 7. The Plant Growth-Promoting Effect and Plant Responses; S. Dobbelaere and Y. Okon- 1. N₂ Fixation vs. "Hormonal" Effects: Historical Perspectives - 2. Effects of Azospirillum and Other Diazotrophs on Root Morphology- 3. Effects on Root Function- 4. Effects on Plant Growth- 5. Future Studies- References- 8. Biocontrol of Plant Diseases by Associative and Endophytic Nitrogen-fixing Bacteria; R. Bally and C. Elmerich- 1. Beneficial Plant-Associated Nitrogen-fixing Bacteria and Biocontrol of Plant Disease- 2. Interactions within Microbial Communities: Competition - 3. Biological Control against Soil-Borne Diseases- 4. Regulation of Biocontrol Properties and Cell-Cell- 5. Plant Response to Pathogens and Biological Control in the Rhizosphere- 6. Concluding Remarks- Acknowledgements- References- 9. Endophytic Associations of Azoarcus spp; B. Reinhold-Hurek and T. Hurek- 1. Introduction- 2. The Rise of Interest in Diazotrophic Endophytes- 3. Azoarcus spp. and related Genera: Strictly Plant-Associated vs. Soil Bacteria- 4. Habitats and Ecophysiology- 5. Interactions with Fungi- 6. Infection of Roots by Endophytic Diazotrophs: An Active Specific Process? EAN/ISBN : 9781402035463 Publisher(s): Springer Netherlands Discussed keywords: Stickstoff Format: ePub/PDF Author(s): Elmerich, Claudine - Newton, William E.
