This unique and empowering text offers a comprehensive, global perspective on the information society from a broad social science perspective. The authors, at the forefront of this dynamic field, provide an interdisciplinary introduction to the three pillars of the information society: technology, knowledge, and mobility and to the global information society as a whole, both as an interconnected web and a regionally distinct phenomenon. Offering a nuanced understanding of this complex subject, this book will enable students to navigate and thrive in the dynamic and evolving world of information and communication technology.
