Often been likened to a modern Keith Green. Acoustic folk rock with a modern worship flavor, his debut solo CD will entertain your ears and fill your heart with a new passion for Christ as he takes you from the wilderness to God's grace. 13 MP3 Songs FOLK: Folk-Rock, SPIRITUAL: Contemporary Christian Show all album songs: Prophets Princes Songs Details: Derek Joseph is a musical prophet with a message to encourage believers in Jesus Christ to live their faith out as a lifestyle. Derek is also the lead singer and founder of Isaiah Six, a worship band with an international impact, though he recently launched his solo ministry career in addition to his work with Isaiah Six. His debut release, Prophets Princes, is a musical journey through Dereks journals as he walked through a long wilderness of spiritual burnout and depression. The result is an album full of the themes of brokenness, grace, and worship. A one-time missionary to Tanzania, where he nearly died of malaria, Dereks heart for the nations also shines on this album. Dereks songs have been featured on Worship Leader Magazines CD SongDiscovery and Worshiper Magazines CD Access, and are being sung by Christians all over the world. A husband, father, author of three books, Derek continues to be a herald of the grace of God, carrying a passion to see an army of believers that have been with Jesus reach the world for Christ. Dereks wife, Heidi Jo, is also an artist, and continues to produce her own music. Together, they live in Lima, NY, with their four children.
