Details: Flash Silvermoon is a force of nature,a keyboard wizard extraordinaire with a powerful voice likened to Janis Joplin,Grace Slick,Bonnie Raitt and in quieter moments Sade.However,Flash is an original in every way playing music that spans many styles yet always making her own unique statement. Also, Flash plays the Djembe[African Drum] like a woman on fire with the Spirits. Flash moved to Florida from NYC many moons ago where she helped create a burgeoning Women's Music scene playing with the likes of Edwina Lee Tyler,Kay Gardner,Liberty[Nydia]Matta,June Millington, Ubaka Hill, Nuru, and many more. As a teenager on the Jersey Shore she even jammed with a very young Bruce Springsteen at the famed Asbury Park Upstage Club where she really cut her musical teeth,back in the day when Women Rockers were really scarce! Flash Silvermoon and The Blues Sisters are a dynamic all female rock and blues band. Their sound has been exciting and elevating their audiences nationally and locall in Gaihesville Fl. Whether singing or playing the multitude of scintillating keyboard parts,Flash performs with style and passion always leaving you wanting more yet satisfied. On her new CD "Phases Of The Silvermoon",with Special Guests, The Blues Sisters,Flash delivers her signature eclectic blend of sounds which defy classification. If you like the exotic and mystical with a jammin beat-listen to "Dancin With The Snake" to make your kundalini rise....or turn the lights down low andmake your night moves to the smoldering "Savor You Like Chocolate". If a good rocker is your desire,kick it with "If Your Heart Ain't In It Get Your Ass Out" Powerful voice,powerful lyrics...if you want something with a whole lotta groove n flavor.this one's for you!!
