Beautiful, ethereal, emotive. F vox over dark ambient music. For fans of Sneaker Pimps, Bjork, Cranes, Portishead, Enigma. 5 MP3 Songs ELECTRONIC: Ambient, ELECTRONIC: Down Tempo Details: Illume is a collaboration of musicians who make ethereal emotive sounds. Illume began in the fall of 2000 to begin making a emotional, dark, beautiful, introverted and passionate music. Inspired by musicians and bands such as Portishead, Delerium, Tori Amos, Bjork, and Cocketeu Twins as well as classical Indian music. Our first "official" review of "blue" Zero's Unsigned Reviews "This song is quite lo-fi in a cool way. It's a sinister piece of music that you could imagine being in a David Cronnberg film from the 1980's, with closed female vocals softly coo-ing over the top. This is an impressive piece of music that finds the correct balance of style versus content."
