Solo Classical Guitar Instrumentals 8 MP3 Songs CLASSICAL: Contemporary Details: I am a rock guitarist that has played Classical Guitar for 20 plus years. I started teaching myself classical technique in my early teens. I also discovered that playing Classical Guitar requires a lot of practice and the best way to motivate myself to practice was to compose my own pieces. Playing Classical Guitar gives me a break from my rock band and also enhances the spectrum of my musical journey through life. I really hope you enjoy my first ever all Classical Guitar CD. Thank you Jamie Palumbo
