Allow yourself to completely unwind to the relaxing sounds of piano, violin, cello, flute, harp, guitar, piccolo, choral harmonies and sounds of inner peace. Recommended to be used in concert with any contemplative activity including: - Reiki - Massage - Meditation - Yoga - Polarity - Relaxation - Music therapy "A Lifetime of Music" Jim Blue, virtuoso musician, gifted composer, and accomplished Reiki master has been a musician and songwriter for nearly 4 decades. He wrote his first song and recorded his first record when he was only 16. As a professional musician, Jim has toured the United States as well as Japan. He continues to play professionally and has already begun to write his next relaxation CD. "A Milestone Achievement" In the fall of 2002, Jim was inspired to write and record a CD designed from the ground up to calm the body, mind, and spirit. He dedicated more than a year to compose, produce, arrange, and record Crystal Blue Tranquility. It is truly, a milestone achievement. Drawing from a lifetime of experiences, he composed this wonderful collection of mood-inspiring melodies and soundscapes for use in concert with spiritual, meditative, mind-exploring, relaxing, and tension-releasing activities. His peaceful, nurturing, reflective music creates an atmosphere that coaxes you to listen, yet allows your mind and spirit to drift where they will.
