Encounters with the heart, earth, spirit, and human relationship. A tribal fusion of voices, drum, and folk strings. 13 MP3 Songs FOLK: Modern Folk, WORLD: World Fusion Details: Many of these songs and chants have been born, as in my "No Separation" CD, inside the circle gathering experiences. As time goes on, it seems like the songs just come to me while I sit in a quiet gathering place with others. For me, the drum calls in a universal world beat. These songs are simple and call out for people to join in singing. I love a spontaneous choir!! Then the arrangements of Kent Allyn, expand the song far beyond just rhythm and voice. The Buddha type face on the cover comes from another passionate past time of mine; taking pictures of earth's reflection in water. Turn the left side of the cover photo to the to the top and you'll see how I first saw this image. I call these "PetreflectionsTM." It's a merging of the words petroglyph and reflection. When I see these images, I hear the drum and there's a resonance that pulls me closer to the earth. The photos have helped me to write my songs from a deeper place. I have merged the photos with my music and created a performance art production entitled, "PetreflectionsTM Live." The creatures found through reflection come alive with masks and costumes, song, dance, and wisdom from the earth. Many of my songs from this CD and "No Separation" are in the show. See my web site for more on this production.
