Music with a creative touch based on inspiration from the northern arctic landscapes -far away from the traditional hit-radio influence. 6 MP3 Songs ELECTRONIC: Synthpop, ELECTRONIC: Electronica Details: From early childhood, music was always a large part of Per Jakobsen's life. Playing live in local clubs, pubs, gigs and other arrangements -was a weekly happening. At a later stage in life the career in music suffered from the pursuit of an Electronic Engineer exam. However, the parallel development of his music skills in composing, writing, recording and mastering kept on growing. Today, Per Jakobsen composes and performs music inspired by the beautiful surroundings in an Arctic environment in Northern Norway. Pers music plays an important role as soundtracks in his own multimedia compositions - from still picture slide shows to cinema commercials. While combining a long experience in performing live music, the focal point these days is electronic music -preferably for high quality listening experiences and multimedia at home or in cinema theatres.
