Head bangers and bumps for the streets. 14 MP3 Songs HIP HOP/RAP: West Coast Rap, KIDS/FAMILY: Kid Friendly Details: TedeRux came up on from the streets of Los Angeles. Been influence from the streets, running around in the streets. Moved around a little a lot from apartment to apartment, till we landed a house in the S.G.V. as growing up listening to artists like N.W.A to Soul to Soul. Music has been a big part of life from my Mom and Dan listening to Brenton Wood to Marry Wells, Joe Bataan. Since the year since the days of freestyle and battling, I would get questions from my peers like "what are you rapping about" My answer would be "just rhyming", that went through high school until everybody was always asking about "where's your CD at. So, 2 years out of high schools after losing my Mom trying to find a decent job, I started writing my first EP. title "Been in it for the 2001" that woke up everyone. Getting compliments like "damm thats tight" "its banging and bumping". I let it ride for 5 years due to more family issues. I got them resolved because I'm just like you, and then came out with this anticipated album "Still In It".
