frothy futurist pop. 12 MP3 Songs POP: with Electronic Production, POP: Quirky Details: Combining an interest in all things musically adventurous with a gift for classic pop song craft, former Zikzak frontman Todd Stadtman has dedicated himself to mining for the fresh and unexpected within the limits of the three minute pop single. With "Only I can save you", Stadtman revels in all the guilty pleasures of processed pop, utilizing fizzy electronics, stark modernist arrangements and digitally altered instrumentation to augment his sharply written, diabolically catchy tunes. The result is an irresistible musical confection - a brisk and quirkily effervescent set that tweaks classic song forms with an endless array of sonic surprises.
