[DOWNLOAD HERE](#)

The Great War of 1914-1918 marks a turning point in modern history and culture. This Companion offers critical overviews of the major literary genres and social contexts that define the study of the literatures produced by the First World War. The volume comprises original essays by distinguished scholars of international reputation, who examine the impact of the war on various national literatures, principally Great Britain, Germany, France and the United States, before addressing the way the war affected Modernism, the European avant-garde, film, women's writing, memoirs, and of course the war poets. It concludes by addressing the legacy of the war for twentieth-century literature. The Companion offers readers a chronology of key events and publication dates covering the years leading up to and including the war, and ends with a current bibliography of further reading organised by chapter topics.
