

Growth And Guilt: Psychology And The Limits Of Development - Luigi Zoja

The relentless exploitation of the earth's resources and technology's boundless growth are a matter of urgent concern. When did this race towards the limitless begin? The Greeks, who shaped the basis of Western thinking, lived in mortal fear of humanity's hidden hunger for the infinite and referred to it as hubris, the one true sin in their moral code. Whoever desired or possessed too much was implacably punished by nemesis, yet the Greeks themselves were to pioneer an unprecedented level of ambition that began to reverse that tabu. If it is true that no culture can truly repudiate its origins, and that gods who are no longer potent can vanish but still leave behind a body of myth which continues to live and assert itself in modernized garb, then our concern with the limits of growth reflects something more than an awareness of new technological problems - it also brings to light a psychic wound a feeling of guilt which are infinitely more ancient.
