

More Than Moore

[DOWNLOAD HERE](#)

1;Preface;5 2;Contents;6 3;Contributors;8 4;Chapter 1;11 4.1;The Changing Landscape of Micro/Nanoelectronics;11 4.1.1;1.1 Introduction;11 4.1.2;1.2 Technology Evolution;13 4.1.2.1;1.2.1 More Moore (MM);13 4.1.2.2;1.2.2 More than Moore (MtM);16 4.1.2.3;1.2.3 Beyond CMOS;21 4.1.2.3.1;New State Variables;22 4.1.2.3.2;Information Transfer;22 4.1.2.3.3;Heat Transfer Management;23 4.1.2.4;1.2.4 Systems Architecture and Design;26 4.1.2.4.1;Design for Heterogeneous System;26 4.1.2.4.2;Design for Manufacturability;27 4.1.2.4.3;Design for Reliability;27 4.1.2.4.4;Design for Testability;28 4.1.2.5;1.2.5 Software;28 4.1.2.6;1.2.6 Heterogeneous Integration and Packaging;30 4.1.3;1.3 Business Development Trends;33 4.1.3.1;Economic Scale;33 4.1.3.2;Cost for Operation;33 4.1.3.3;Devirtualization;34 4.1.3.4;Specialization;34 4.1.3.5;Advanced CMOS Manufacturing Has Become a Commodity;35 4.1.3.6;System Knowledge;36 4.1.3.7;Function Integration;36 4.1.3.8;Fablite and Fabless;37 4.1.3.9;Ecosystems;37 4.1.4;1.4 Making it Happen;37 4.1.5;1.5 Conclusions;39 4.2;References;40 5;Chapter 2;42 5.1;Smart Integrated Systems: From Components to Products;42 5.1.1;2.1 Introduction;43 5.1.2;2.2 State of Technology;44 5.1.2.1;2.2.1 Automotive;44 5.1.2.2;2.2.2 Aeronautics;46 5.1.2.3;2.2.3 Information and Telecommunication;46 5.1.2.4;2.2.4 Medical Technologies;47 5.1.2.5;2.2.5 RFID;49 5.1.3;2.3 Future Trends and Application Examples;51 5.1.3.1;2.3.1 Automotive;51 5.1.3.1.1;2.3.1.2 Future Trends;53 5.1.3.2;2.3.2 Aeronautics;54 5.1.3.2.1;2.3.2.2 Future Trends;56 5.1.3.3;2.3.3 Information and Telecommunication;58 5.1.3.3.1;2.3.3.2 Future Trends;59 5.1.3.4;2.3.4 Medical Technologies;60 5.1.3.4.1;2.3.4.1 Application Example: Integration Aspects of a Polymer-Based SPR Biosensor with Active Micro-optical and Micro-fluidic ;61 5.1.3.4.2;2.3.4.2 Future Trends;62 5.1.3.5;2.3.5 RFID;64 5.1.3.5.1;2.3.5.1 Application Example: Smart Active ID Label for Transport Monitoringby D. Reuter and A. Bertz, Chemnitz University of ;65 5.1.3.5.2;2.3.5.2 Future Trends;66 5.1.4;2.4 Cross-Cutting Issues;66 5.1.5;2.5 Conclusions;70 5.2;References;71 6;Chapter 3;72 6.1;RF Technologies and Systems;72 6.1.1;3.1 Introduction;72 6.1.2;3.2 Multilayer Thin-Film Technologies;74 6.1.2.1;3.2.1 Thin-Film Technology for Integrated Passives Devices;74 6.1.2.2;3.2.2 Above-IC RF-SOC;77 6.1.3;3.3 RF-MEMS Technology;78 6.1.3.1;3.3.1

RF-MEMS Switches;79 6.1.3.2;3.3.2 FBAR Resonators;80 6.1.3.3;3.3.3 RF-MEMS Packaging and Reliability;81 6.1.4;3.4 Using the Third Dimension;82 6.1.4.1;3.4.1 Why Moving Toward the Third Dimension;83 6.1.4.2;3.4.2 3D Systems in a Package for Highly Miniaturized Systems;83 6.1.4.3;3.4.3 Packaging Technologies up to Millimeter-Wave Integration;85 6.1.5;3.5 Further Trends;85 6.1.5.1;3.5.1 Wafer Reconstitution Techniques;86 6.1.5.2;3.5.2 3D Integration Using Ultra-Thin Chip Stacking;87 6.1.6;3.6 Concluding Remarks;90 6.2;References;91 7;Chapter 4;94 7.1;High Voltage and Power;94 7.1.1;4.1 Introduction;94 7.1.2;4.2 SSL Technology;96 7.1.2.1;4.2.1 General Lighting Technology;96 7.1.2.2;4.2.2 New Technology;96 7.1.2.3;4.2.3 Fluorescent Lamps and Driving Methodology;98 7.1.2.4;4.2.4 IC for the Fluorescent Lamps;101 7.1.2.5;4.2.5 LED Lighting;103 7.1.2.6;4.2.6 IC for LED Driving;104 7.1.3;4.3 Automotive IC Technology;107 7.1.3.1;4.3.1 Introduction and General Automotive Survey;107 7.1.3.2;4.3.2 Engine Evolution: Major Trends;109 7.1.3.2.1;4.3.2.1 Gasoline Engine;109 7.1.3.2.2;4.3.2.2 Diesel Engine;109 7.1.3.2.3;4.3.2.3 Hybrid Cars;110 7.1.3.2.4;4.3.2.4 Engine Auxiliaries;110 7.1.3.3;4.3.3 High-Voltage and High-Power Silicon Technology;111 7.1.4;4.4 Research Subjects;114 7.1.5;4.5 Energy and Efficiency [3];114 7.1.5.1;4.5.1 Energy Generation;114 7.1.5.2;4.5.2 Energy Efficiency;115 7.1.5.3;4.5.3 Power for Mobile Communication;116 7.2;References;116 8;Chapter 5;117 8.1;Sensors and Actuators on EAN/ISBN : 9780387755939 Publisher(s): Springer, Berlin, Springer US Discussed keywords: Mikroelektronik, Nanoelektronik Format: ePub/PDF Author(s): Zhang, Guo Qi - Roosmalen, Alfred J. van
