Details: [HERE IT IS!](#) The much anticipated third album from Claude Diamond. If you enjoyed "Diamond Dust" and "Highway Of Life" you will love "On The Loose". For this disc Claude wrote eleven new songs. A few of the characters you will meet includes a car thief, a coal miner who sold his soul to the Devil, an unlucky dude caught slipping around on his wife, convenience store robbers, a young guy locked up for selling drugs, an alcoholic searching for redemption and a singer/songwriter trying to pick the lock on the gated city of Nashville. BUT WAIT!! THERE'S MORE!! The songs tell unique stories about the upside and downside of life using humor or sadness and sometimes both. While this album has it's share of touching moments, I'm pleased to report that it does not include the typical boy/girl songs heard on mainstream radio. If you're interested in music that raises the bar, this is it! Just click the song samples and listen to the diverse musical styles on this album including country, bluegrass, rockabilly and blues. Last year Claude performed his acoustic show here in the USA, France, England, Scotland and The Netherlands. Thanks for looking and listening. WHAT OTHERS ARE SAYING: "Claude may not be as well known and may not have the catalogue of Prine but he is every bit as good". yesterdayandtoday.com.au FOUR STAR REVIEW: hanx.net
