An eclectic, home-recorded scrapbook of songs in various styles, ranging from solo acoustic guitar with harmonica, to Sinatra/Bacharach, to upbeat full-band feel. This CD represents bits and pieces of my life, quirky observations, musings, ups and downs, 13 MP3 Songs ROCK: Acoustic, JAZZ: Smooth Jazz

Details: A North Carolina native, I have been playing guitar from the age of 14, and reside in Charlotte, where I play acoustic favorites at various restaurants, bars and private settings. With a wide variety of musical influence, from the Beatles to Zappa, I have developed a versatile playing style that applies to various genres. I have never categorized myself in any specific style, although Eclectic Acoustic seems to apply, for the most part. I use drop-D tuning a lot, and enjoy creating a full, multi-layered acoustic feel with accompanying bass-line.
