Take driving acoustic guitars, passionate, dynamic vocals, an energetic alternative edge and a little celtic flavor doesn't hurt... it's about time for you to experience the celternative. 12 MP3 Songs ROCK: Acoustic, WORLD: Celtic Details: Jeff Greer Band History/Bio If you want you know this band's history you're gonna have to wait until the VH1 Behind the Music, because, let's face it... we need to live in the now!!!! What are we doing now? This is what really matters. Where I was born or what other bands I played in have nothing to do with the now... just the then. So let's focus on the now of what we are doing and not the then of what we used to do. Who cares!!!! A rock band with no electric guitars? And a loud one at that! Believe it! If you don't know what I am talking about then you probably still watch black and white TV. The jeff greer band, or jgb for short, is exactly that. Loud but emotional; Energetic and dynamic; Moving... all over the stage (and crowd). But no electric guitars, what then... keyboards? My goodness NOOO!!!! If you like keyboards you will hate this band! Two driving acoustic guitars front this energy filled, 4-piece powerhouse. Melodic bass and intense, methodical drumming bring up the rear. Powerful, passionate vocals top off this combination to make the perfect match. But wait there's more! Add a little bit of celtic flavor to keep it historic and voila... you have been invited to EXPERIENCE the CELTERNATIVE. Live meets Green Day meets Rusted Root meets the Pogues. Take them all to a party, get them all drunk, put them on stage together and make them play a song and you would probably get a bunch of noise that didn't make much sense. But, put them all in a blender, set it for puree and guzzle it down, it would probably taste a lot like jeff greer band. I don't recommend you try this at home, but I do recommend that you heed the curiosity that has piqued you and buy the cd. And please... listen carelessly and with reckless abandon Warning: jeff greer band is not responsible for whatever may occur during or after experiencing the celternative.
