Relaxing beautiful jazzy folk and country songs and tunes whereby I sing and am a "onemanband" playing the acoustic guitar, bass fiddle and piano. 10 MP3 Songs COUNTRY: Country Folk, EASY LISTENING: Love Songs Details: This music is jazzy folky popish so you can relax upon listening time. There is quite a mix of music descriptions so if you listen to the whole CD you can examine it fully. A most beautiful country song entitled "Song For Jennifer" is awesome and loving to my daughter who was a little baby when it was written and composed w/ myself singing and on my Martin Acoustic and 2 friends on keyboard and electric guitar. Many of my instrumentals have myself playing acoustic guitar, adding a lead guitar, and also adding a nice electronic keyboard or piano on top to make the cuts very beautiful and keeping a listener calm minded.
