Lesley delivers West Texas music with a powerful yet tender quality. 11 MP3 Songs FOLK: Folk Pop, COUNTRY: Country Folk Details: I was born in Muleshoe Texas during a blizzard. I spent the next 12 years in Quemado, New Mexico until we moved to Oregon. At some point I found myself at South Plains College and joining various ensembles that began to rekindle my love for music...I've been moving back and forth between different cities in Oregon and Lubbock Texas for as long as I can remember. But the Lubbock area and West Texas music changed my view of music in so many ways. After several years of running into brick walls I started to lose my passion for performing. Around this time I met a playwright/songwriter, Andy Wilkinson, who restored my love for the art of story telling and it's beauty. I want to create a similar setting with my work. There is so much to say in a song and you don't even have to take your clothes off to get your message across.
