Stepping Stone is a collection of folk, pop and gospel gems that are sure to ease your troubled mind and lift your heavy load. The disc also features a re-recording of Cowboy Stories, their first US/Canadian hit song from 1987. 12 MP3 Songs FOLK: Folk Pop, ROCK: Folk Rock Details: Ken Marvin and Brian Gentry grew up in Kentucky playing and singing together. Heavily influenced by America, Crosby Stills Nash, Lennon/McCartney and Simon/Garfunkel, the two cultivated their sound and writing skills and took their grass roots approach as Marvin&Gentry on the road to college campuses in the US and Canada. During the late 80s, the two met Dan Peek, founding member of the group AMERICA, through a mutual friend while based in Nashville. The three began to collaborate, writing and recording what would later become the PEACE "Stronger than You Know" CD, released in 1994 on 7 Mile Entertainment, Dan's private label. (see DANPEEK.COM) A hard act to follow... Peace turned out two more wonderfully crafted albums, the self titled "PEACE", and the critically acclaimed "Under The Mercy". Stepping Stone is their seventh studio project. It captures the same harmonies that introduced them to audiences in the late eighties and nineties. Their message celebrates triumph over tragedy with themes of recovery and redemption.
