soul filled smooth jazz bass that take you to another place 7 MP3 Songs JAZZ: Smooth Jazz Details: Songwriter, Composer, producer, bassist and bandleader: smooth jazz artist Michael Haggins does it all. His laid-back but funky style entices the listener to surrender to his smooth, jazzy arrangements. Michael, a native of Pasadena, CA, began playing sax, drums, and electric bass during elementary school. During these early years, Michael played in several pop and R&B bands, performing in local talent shows and community events throughout the Los Angeles area. Trumpeter/Coronetist Bobby Bradford invited a young Michael to play bass with The Pasadena City College Jazz Combo. This broadening experience exposed Michael to jazz standards, bebop, and jazz improvisation. Echoes of musical giants such as George Duke, Stanley Clarke, Roy Ayers, Grover Washington Jr. and George Benson can be heard in Michael's work to this day. Since earning his BA from Cal State Long Beach, Michael has been busy working in the studio as both session player and producer in the LA music scene. He fronted his own band, Jasmine, and became a favorite at area venues such as The Marina del Rey Fishermans Village Jazz Concert Series, The Farmers Market at The Grove, the Pasadena WIA Jazz Festival and The Atomic Caf in Hollywood. Daybreak creates a vibrant aural landscape, a rich pallet of easy rhythm and irresistible melody and on into the beautiful Diamond Eyes, with its unforgettable through-line (both the sultry vocal version and the beguiling instrumental version). The reverie continues with the delicately lyrical First Breath and the warmth of Norine. With Daybreak, Michael Haggins gently guides us along a luminous musical journey and leaves us hungry for the next destination.
