But, you will be glad to see Palo Duro today because it is also the name of a Western Music trio that has been spreading in popularity like the great canyon they are named after. This group is dedicated to the creation of authentic western entertainment, like you might have heard in a cow camp one hundred years ago, but manages to capture the true flaveor of modern working cowboys. Just like those old time performers, they do material written by people they know or have heard, along with things they write from personal experience and a sprinkling of the great old classic cowboy songs. The group researches the material and shares there personal history of being born and raised on a three generation farming and ranching operation, to give the story behind the story when they perform. Their New album titled "Cowpokes, Horses Old Glory" has fifteen tracks on it that tell the story of the American West in song and poetry. the 2004 Disk Jockey of the year, Joe Baker says, "Palo Duro is one great Trio! I can see "Cowpokes, Horses, Old Glory" becoming Western Music Album if the year! The great award winning performer R.W. It also prompted a personal letter from President and Laura Bush. This Album will make you think, make you laugh, make you cry, but best fo all, it will touch that great American Cowboy spirit that is in each of us!
