Details: Touting a minimalist lineup of delicate yet incisive piano playing, naked voice, and moody string arrangements, Stephanie Croff's newest release, *Why Do We Sing*, is a compelling chronicle of emotional descent, ascent, and the troubled waters between the two. Like the crisis-beset femmes of Tori Amos, *Over the Rhine's* Karen Bergquist, and *Patty Griffith*, Stephanie Croff courts chaos of the heart without careening into musical ire and gestures towards redemption without waxing saccharine. *Why Do We Sing* not only showcases Croff's lush vocals, but also the string mastery of Kevin fox, whose cello matches the emotional pulse of Croff's delivery beat for beat. *Why Do We Sing* is an exercise in simplicity: a purging of one woman's burdens, a shunning of musical overproduction in favor of musical restraint. Listen to this album when it's quiet, cold, lonely, or when you need something to outdo the clamor in your life. I guarantee melancholy will never sound so good. -- a review by Andy Patterson People who are interested in Tori Amos Joni Mitchell Patty Griffin should consider this download.
