With this offering, Terisa Griffin has emerged as the consummate artist. Her voice has never been richer, her lyrics never more poignant, her soul never more accessible. She clearly knows who she is and the world will be a better place because of it. On My Naked Soul, Terisa Griffin is lyrically fearless. It is as if every song was created in reverse born fully cloaked in melodic splendor only to be stripped bare until just the naked soulful truth remains. How else can you explain the raw intensity of Anymore, the blissful confessional Wonderful, or the powerful love anthem for the ages, Better Love Yourself? This is lyrical truth serum, and the truth never ever sounded so damn good! Yet, it is the voice that unmistakable Terisa Griffin Gift from God that melts the senses. Her voice warms like a full-bodied cabernet. Its sexy, alluring, and spine tingling. Who among us can resist her plea on One More Fight, One More Try? A daily dose of Alright would put some pep in your step and umph in your rump! This album, much like its first single, is pure Sunshine. It will undoubtedly make you feel wonderful. Spend some time basking in its warmth and Im sure youll agree.
