Details: This is a collection of anti-religious cut-up poems/stories. Some open ended, and some blatant to point that it reveals the stupidity of "close minded" religious fanatics. It all started after viewing some of the religious fundamentalist videos on youtube. Ok, first let me say I dont care what you believe, its not my place to tell you what to believe. However, some of these bigots went to far. For example: One of these fundamentalists wants to teach a group of small kids to be hateful and as closed-minded as herself and is in fact doing this! Another says we dont have to protect the environment or be concerned for the future because we will be called to god within the next few years! Since he is closed to other points of view it is impossible to show him how this is wrong. Religion: Prehistoric solutions for current problems
