"With RADIANCE, we are staying with strong Scripture themes but going back to a more recognizable Acappella style." - Keith Lancaster 10 MP3 Songs GOSPEL: Contemporary Gospel, GOSPEL: Traditional Gospel Details: Hi Friends, The new Acappella album was such a joy to record. As I listen to the finished product, the return to some old-school sounds brought many delightful "flash backs." There are times throughout the album when you can almost hear a singer from years ago. In fact, the similarities are often eerie. Having written most of the music, it is not surprising to find ties back to previous albums. However, I made a strong attempt to seek variety from song to song so that everything doesn't sound alike. The versatility of the voices in Acappella make for a very fresh project. These guys are so talented and are fast learners! I am proud of my son, Anthony and his writing debut for Acappella on this CD. Melissa did an outstanding job with the engineering of this project. Kim provides a wonderful treat with some very unique photography for the CD. With Heaven Earth, we explored new territory with an R&B influence. With RADIANCE, we are staying with strong Scripture themes but going back to a more recognizable Acappella style. We are excited about RADIANCE, and I really hope you enjoy it as well. Please pray that this project will point people to the ONE who is the "exact representation of His being." Hebrews 1:3 "The son is the radiance of God's glory." Blessings To All, Keith Lancaster - Founder Producer of Acappella
