Details: "...a spring water clear voice ranging from a country-tinged Carly Simon to a younger more focused Grace Slick".. Listen.com "Peaceful, intelligent, artistic, beautiful, melodically haunting.. disarmingly soothing".. Cosmic Chris" NEW WEBSITE IN PROGRESS ... GO TO WWW.CAMENGINE.NET Cam Engine's first release, the "Lavender" CD single, charted as high as #2 on the IUMA 'Easy Listening' Charts and stayed in their top 40 for 4 solid months. I'm sure you will agree with their listeners.. this is a hot new talent!!! For those that enjoy live solo performances by the lead singer, Claire Machado, Cam Engine's "Unleaded" CD brings forth 5 new 'unplugged' tracks. Three from a singer-songwriter competition night at the famous Brookdale Lodge and two of which are 'bootlegs' from her new Mac G4 computer. Claire is a multi-instrumentalist and a graduate of San Jose State University in Creative Arts. She has performed regularly in the San Francisco Bay Area since the 1980's. Prior to starting Cam Engine, her first solo project, Claire performed as the keyboard player for the Mark Castro Band and wrote the lyrics to several MC favorites: On My Way, No More Games, One Lifetime, Nightbird, Losing Ground, Long Distance, and I'll be with you. Songwriting since the age of 13, Claire believes her songwriting talent comes from her paternal grandfather who was well known on the island of Terceira for 'fado' singing, in an impromptu ballad format. Claire has enjoyed singing since the age of 2. More photos and bio information can be found at the iumasite.. JUST LISTEN!
