A new Breed of industrial Music. Original and Artistic insanely mangled vocals and guitar/keyboard With a systematic format that is infectious 5 MP3 Songs ELECTRONIC: Industrial, ROCK: Goth Details: I grew up in Philadelphia. For most of my life I was tormented by my fellow classmates because I was different . I soon realized my only escape other than art was video games were I would be the one dealing out punishment. In the video game world I was in control. This is where the first half of my name comes from, and the second half is how these kids made me feel like a freak. That is what the name represents for me. Most of my songs deal with this subject matter. I decided to leave Philly in Feb 2001 to pursue a music career in Hollywood. This was a crazy time, but things are starting to come together in a crazy, mangled sort of way. My influences are Nine Inch Nails, Skinny Puppy, Frontline Assembly, and Prodigy. [Negative Space is a enhanced CD so in addition to the songs you can put it in a computer and watch my music videos or view a gallery of my artwork and lyrics to]
