

Mp3 Dear Enemy, - Rock: Modern Rock

[DOWNLOAD HERE](#)

Politically satirical lyrics about the 3 G's, (god, govt. girls), combined with soothing tempos, lush layers of sound, occasional outbursts of explosive edginess. 12 MP3 Songs ROCK: Modern Rock, POP: Delicate Details: NICE GUYS CAN BE DARK TOO! Dear Enemy, creatively blends politically satirical lyrics about the 3 G's, (god, government, girls), with soothing tempos, lush layers of sound, and seemingly random explosions of edgy melancholy. Their music is both intelligently sad and beautiful in its approach toward melody and harmony. Most people will notice that these guys are striving to do something completely different from the typical L.A. rock band. Regardless of the genre of music they attempt, (which are many), it all somehow manages to maintain a distinct cohesive identity. Some songs are so quiet that the band themselves could carry on a soft conversation, where other songs are so explosive that the audience is nearly taken aback by their 0 to 7.0 richter scale dynamics. This is a very emotionally effective ensemble. Oh yeah, I almost forgot to mention the artwork throughout their debut CD is absolutely hilarious!
