heavy metal speed metal 16 MP3 Songs METAL: Thrash/Speed Metal, ROCK: 80's Rock Details:

Somewhere between Judas Priest and Motorhead lives Matt McCourt's new cd SIN SANDWICH a "Romp through faster pastures" straight from the mouth himself. 'this collection of songs was written entirely on bass as was the original Dr Mastermind cd and emphasizing the faster harder approach . McCourt plays solid leads as well as bass and vox Defender of Metal Bryce Van Patten on Drums and A few guest guitarists make their way onto the disc, Steve Broy, and Heathen Scum Join Matt on Devils Hand featuring a 12 string electric and a great curveball distraction from the nonstop bombast speed metal assault which kicks off the album. The vocals for the first time in matt's career are in focus and layered sometimes providing a lush platform for the main vocal to soar over. The lyrics are well thought out and storylike(considering this batch of songs took 4 months to produce) Joining Matt is Kevin Sanders Gargoyle guitarist and once upon a time a primary force in punkrock kings Posion Idea on the revamped BETTER LATE THAN NEVER one of matts trademark lines. That sums up his 25 year career quite well. Meathook drummer Paul Dreyer Pounds out the double bass on "ALL THE WAY TO WACKEN" about they famous metal fest in Germany. SIN SANDWICH a clever tune Alluding to the sexual delights of your favorite double decker burger and food fetishes in general. Leads are shared by death metal hero "peepin Tom" Parenteau and matt mccourt whose playing is the main course and more than passable on a recent tv show Producer Steve Broy remarked that mccourt's playing is comparable if not better than the likes of Jeff Beck . if youd like to listen please click those links and give em a try. Here online The Bonus tracks on this cd are from the band sinn and a song mccourt guested on and also appears on the Rune of odin cd here at cd baby. A rare just recently discovered blouse jam with deen castronovo and kurt james(mccourt is on guitar. James on bass) Also included is a track from "a guy I met online" according to

matt."Anthony Bracalgia from Flordia Sent me demo, which was great and had no bass or vocals so I added mine and sent it back he re did the lead and keys and drums and voila a long distance recording like I did with Boris Haranki on the dr mastermind plus live!. Finishing the set is a song from string master Kurt James called Last chance" playing all the instruments himself. More will be heard in an all inclusive disc of mp3 files that will also include some interactive demos form the first dr m album that have no lead guitar so aspiring shredders (whove had 20 years to learn the songs) can jam.. SIN SANDWICH is a fantastic offering from one of rock/metal's obscure islands Fusing fast driving anthems along with heavy headbanging and great guitar work Every album matt reveals a little more of himself or as he puts it-I keep learning, as long as I keep having life experiences, im gonan have songs hopefully and if not im tryin to get em all out of me before they dry up-cuz one of these days that's bound to happen- and if theres one thing I've learned, go while the train is running cuz its hard to push start something big enough to move people" these songs are what I felt during the months of march-july 2005 most of them were first takes with Bryce never hearing the demo-if there was one! We got together on Sundays record 1-3 basics and then id work all week on em adding bass and other parts, then repeat the process till we had a bunch of songs A cycle we've been going in since 20001 when I finished the king of the world cd .(also available here at cd baby.) in addition to sitting in in as many sessions as possible the most recent with Prowler Inc. for their upcoming cd and the mentors'pope scum Church of El Duce albums.Making music is a big part of my everyday life as is video which is soon going to be my focus we will be producing a number of videos for this cd the first 2 will be LIVIN GETS ME DOWN. SIN SANDWICH . matt is working on a stage show that will be a sci fi themed production and include video and some new tricks - a one man show is also on the planning table The focus would be on the lighting special fx And video, employing a technique seen at the sci fi museum for suspended illumination video. Part magic, part hardware, all matt. And no drums to move- We believe this cd will put mccourt on the tracks again. For more info and get on the mailing list usmetal.com
