Hip-Hop from an artist on a worldwide scale. O LIMITS... 16 MP3 Songs HIP HOP/RAP: Hip Hop, HIP HOP/RAP: East Coast Details: It was the year nineteen eighty five. A man named Eyphlo began his journey and preparation to lead a new generation into the era of the working class emcee. At the same time, a new breed of emcees were being trained to take over Hip Hop culture with a false reality of materialism. The former promotes the ability to choose and think freely and the latter, slavery through mind control. Which one will reach the people of Hip Hop first? The year two thousand six is here and mental slavery through Hip Hop has taken over with no signs of slowing down. Eyphlos time has come to lead the way with his sharpened skills and ability to travel between the two alternate realities. Eyphlo has been cultivating a secret project called Black Crystals, carefully designing each element for the purpose of telling the stories of the common man, the free thinking man. His remarkable story telling abilities and his palette of truth are starting to shake the very foundation of the corporation but not without resistance from their army. An overwhelming task of defeating the powers that be is ahead of Eyphlo but his training over the years has brought him to this mission. The countless battles on the streets of the Bronx against other emcees and the hours spent in his bunk with his team will surely give him an advantage over those who think destroying the oppressing system is impossible. Eyphlo has been chosen to carry the torch into the battle and vows to never return until the working class emcee becomes the norm in Hip Hop.
